All –

My sincere apologies; the report has not yet shipped to EPA. I took a few days off prior to Christmas and expected the document to be produced and shipped. Apparently we did not update the last of the GIS files in WQX format after our last revisions to the maps and my GIS person is out of pocket in Michigan. The document is ready to ship, but in order to avoid confusion, ARCADIS staff did not send the document without the complete and correct files included as an attachment. It is my anticipation that the correct files will be uploaded to our local system on Monday, December 30. We can burn the electronic file CD at that time and ship that day. Please let me know if you have any questions. Again, my apologies.

Kevin,
I have not seen this report appear and may need the tracking number unless you can check on it. I have asked our mail room and they are also checking to make sure it did not get sidetracked.
Thanks,

René

Subject: DOCKET NO. SDWA-10-2013-0080 / FINAL Residential Well Sampling Report - DELIVERY

Eric, Jennifer, and Rene –

The final YVD Residential Well Sampling Report is ready for transmission. However, the size of the complete report is 102 Mb (616 pages); our electronic mail systems will not transmit such a large attachment. ARCADIS will send the report on DVD-R via FedEx with the report hard copies (including the WQX files). The report will be sent to EPA on Monday, December 23, 2013. If you have any questions, please call me.

Thanks.
